Interior Fit-out Contractors
Bespoke Furniture Manufacturer

About Us

Abu Haroon Projects is a professional interior designing firm that instills in its clients a sense of prestige and belongingness, wherein we exemplify creativity in every sense of the word and create an impressive ambience, desired and inspiring to all. We help you to create your signature look, by combining colors with textures and varied materials so that you yourself are augmented and awed. Be it an office or a home, we have a solution for all discerning interior beauty conscious clientele. We source new fabrics, furniture, prints, textiles, and products on an ongoing process to create a sense of differentiation for each client and our talented team integrates everything to create a scheme that suits the location, budget and most importantly the clients vision.

Style and the Law of Ergonomics :

We at **Abu Haroon Projects** do not believe in creating a style or following suit of a fashion that is uncomfortable or an unhealthy living style, instead, we believe in the creation of an environment that is stylish and comfortable in its own way and is in accordance with the laws of ergonomics to provide a conducive environment wherein ones' body and mind are at ease and coordinated with each other.

Our Vision :

“To create your Dream Environment; without compromising on style, comfort and time.”

Our Mission :

“To become a Benchmark, through continuous development of skills, techniques & style.”

Our Commitment :

- We are dedicated to the timely completion of the projects we undertake and our employees' success in their career.
- We prefer short-term trouble to sheer failure, i.e. we tackle obstacles with perseverance.
- Efficiency is as much at the heart of our work as we avoid needless complexity.

Our Values

Integrity :

- We do what we think is in the best interest of our clientele; and we maintain confidentiality, respect, trust and fair treatment with our clients and employees alike.

Quality Assurance :

- We apply the highest standards throughout our activities and never put our reputation at stake by using short cuts and time-saving methods. Precisely; "We don't compromise on quality".
- We are dedicated to Quality - the quality of products, services, and relationships.

Safety :

- We strictly adhere to International Safety Standards to ensure the well-being of our Employees.
- We comply with the Department of Environmental & Occupational Health (DEOH).

Flexibility :

- One of our key features is our flexibility in every aspect of our business dealings. We are flexible with our clients, our employees, our terms, and our conditions, and believe in serving our stakeholders as per their needs and wants.

Our Values

Working Conditions :

- We believe in providing working environment to enhance the productivity of our employees.
- A healthy work environment, where politics is negligible and where team members are respected gives rise to cooperation, which benefits all our stakeholders.
- We agree that 'Democracy' is great, but it is the worse way to make technical decisions; as technical decisions require Knowledge, Experience and Logic.

Communication :

- We foster open communication at every level.
- "We close the loop" of communication; letting our clients know the status of our progress on the projects and when completion is expected.
- Communication flow in our organization is two-way; we do not have a Bureaucratic Culture or Red-Tape.

Training and Development :

- Since we are a growing company; thus, training and development of our employees is crucial for our success in this challenging and competing era.
- Thus, a development program for all employees; is administered by the HR department, which ensures tailored training to meet the needs of the individual.
